

*Inductor cores 0201
0.25 x 0.50 mm*

Highest precision on smallest size

Reliable components for miniaturization

- More than 50 years of manufacturing know-how
- Tightest dimensional tolerances even in outputs of billions
- Outstanding quality and material properties

*Resistor cores
0.80 x 1.87 mm/±0.005/±0.023 tolerance*
