Ceramtec's  
Lunch Symposium:  
**Arthritis of the Hip  
in Young Patients**

**October 24, 2017,  
13.00–14.00,  
New York 1,  
Conference  
Center**

# Arthritis of the Hip in Young Patients

Chairman:  
Wolf Drescher, MD, PhD, Professor

## Programme

**AVN of the hip: a potentially mutilating disease  
of the young patients hip**

*W. Drescher, Schwarzenbruck, Germany*

**20-year experience of ceramic-on-ceramic total hip arthroplasty**

*K.H. Koo, Seoul, Korea*

**Treatment options for young osteonecrosis patients**

*T. Yamamoto, Fukuoka University, Japan*

**How to treat the taper at revision**

*M. Morlock, Hamburg, Germany*

**CeramTec's Lunch Symposium  
at the Annual ARCO Meeting  
combined with DKOU**

October 24, 2017, 13.00–14.00,  
New York 1,  
Conference Center  
Messe Süd, Berlin

## **BIOLOX®** *delta* **ceramic-on-ceramic**

Excellent clinical performance  
Excellent biological behavior  
Excellent choice for active patients

- Lower risk of revisions for infections\*
- Significantly lower fretting corrosion\*
- Pathogenic reaction to ceramic particles is very unlikely\*
- No known risk of allergy\*
- Safe in terms of metal ion release\*
- Excellent wettability\*
- Highly scratch resistant articulating surface\*
